STATEMENT FOR 1947 RED CROSS FUND

Every year when it comes time for this Fund Campaign, I wish I could find new and stronger words to express my admiration for the activities of the American Red Cross. We all know in some degree the great measure of relief and assistance the Red Cross annually brings to members of the armed forces at home and abroad, to veterans in the hospitals and to their dependents at home, to millions of the near helpless in America and throughout the world.

Now that it is again time for the 1947 Campaign, let us remember that men have always had the obligation to be good Samaritans. And let us be grateful to the Red Cross for making it much easier to be a good Samaritan today than it was in bygone centuries.

Whatever we may be able to give to the Red Cross will be an investment that pays rich dividends in accomplishment and in personal satisfaction to the giver.

PHILOSOPHIZING FOR RECREATION

The Washington Society for Philosophical Inquiry is not a fly-by-night organization. It is 60 years old and some of the outstanding minds have been members. Every 2nd Tuesday of the month they meet for relaxation by delving into the field of philosophy. These discussion groups are held at the National Museum and begin at 5 PM. Employees of The USDA are invited to attend. After listening to an account of their meeting one gathers the impression the members are as enthusiastic and serious about this club as any bridge or chess group.
